Email: uniqueyashu14@gmail.com

Mobile: [+919440908784](tel:+919440908784)

SKILLS

Languages:	C++, My SQL
Tools:	Nmap, Metasploit, Burp suite, SQL Map, Wireshark, Nikto, OWASP ZAP, Gobuster, Hydra, FTK imager, The Harvester, Volatility framework, OS Forensics, PE Studio, PE Xplorer.
Security domains:	OSINT, Vulnerability Analysis, Penetration Testing, Digital Forensics, IDS & IPS, Web Application Security, Network Security, Malware Analysis, OWASP top 10.
Platforms:	Try hack me, Hack the box and Port swigger.
Soft Skills:	Problem-Solving, Team Work & Collaboration, Leadership, Continuous Learning, Communication Skills, Time Management, Adaptability.

PROJECTS

Full Web Application Penetration Testing Kali Linux	Aug' 25
- Conducted a full web application penetration test using Kali Linux to identify and analyze security vulnerabilities. - Performed reconnaissance, vulnerability scanning, and exploitation testing following OWASP Top 10 security testing methodologies. - Prepared a comprehensive penetration testing report including vulnerability details, proof-of-concept evidence, and mitigation recommendations. - Following various method to find bugs and solving Bugs and documented a detailed penetration report.	
Blockchain Integration for Optimized Organ Donation Systems Blockchain Technology	Apr' 25
- Developed a secure organ donation management platform using blockchain technology to ensure transparent, tamper-proof, and secure donor recipient data management. - Implemented high security standards and data integrity mechanisms through blockchain-based architecture for reliable healthcare data transactions. - Designed and deployed APIs on a cloud platform to enable seamless integration with external healthcare systems and services. Built a specialized platform for an organ donation, deployed the API on a cloud platform for easy integration.	

EXPERIENCE

Ethical Hacking (PROG MASTER PVT LTD)	Sept' 24 – Feb' 25
VAPT, OWASP, Security Tools	
- Applied OWASP Top 10 security testing techniques to detect common web vulnerabilities including SQL Injection, XSS, and misconfigurations - Gained hands-on experience in ethical hacking and penetration testing using Kali Linux, performing reconnaissance, scanning, and vulnerability assessments on web applications and networks - Performed Vulnerability Assessment and Penetration Testing (VAPT) on web applications, Android applications, and endpoints to identify security vulnerabilities. - Strengthened skills in technical documentation vulnerability reporting teamwork and maintaining ethical and legal compliances during security assessments - Prepared detailed reports including proof of concepts (PoC) and remediation strategies to improve security. Highlights: <u>OWASP – Top 10 Vulnerabilities, Network Security fundamentals, Hands on experience.</u>	

CERTIFICATIONS

Ethical Hacking Cisco	Mar' 26
Cyber Security Analyst Cisco	Mar' 26
Certified Ethical Hacker EC – Council	Nov' 25

EDUCATION

Lovely Professional University	Phagwara, Punjab
Master of Technology	Aug' 25 – Present
Information Security & Cyber Forensics	
Siddharth Institute of Engineering and Technology	Puttur, Andra Pradesh
Bachelor of Technology	Dec' 21 – Apr' 25
Cybersecurity including IOT & Blockchain technology
