Internship

Technology Intern (Cybersecurity & AI)

Apr 2026 – Sep 2026

Software, AI/ML & Security

New Delhi, India

- Designed and built a **Python multi-agent automation system** integrating **LLMs (Claude)** to automate complex technical workflows end to end.
- Developed **automated testing pipelines** and verified outputs for accuracy and reliability before delivery.
- Performed security assessments in a **NABL-accredited STQC lab** environment, following standardized, compliance-driven procedures.

Ethical Hacking / Security Intern

Sept 2024 – Feb 2025

Security, Testing & Automation

Hyderabad, Telangana

- Automated repetitive testing tasks with **Python scripts**, improving speed and consistency.
- Applied structured **problem-solving** across web and mobile applications, documenting findings and remediation with clear, reproducible steps.

Projects

Autonomous Multi-Agent Automation System

2026

Python, LLMs, Agents

- Built a planner + worker **multi-agent system** using Claude to automate complex technical tasks end to end.
- Benchmarked agent performance across known and novel problem sets to measure real-world reliability.

Enhancing Transparency in Organ Donation Through Blockchain

Jan 2025 – Apr 2025

Solidity, Hardhat, JavaScript

- Designed a secure, transparent **organ-donation management system** on blockchain with **smart-contract** verification on Ethereum and cloud-deployed **REST APIs**.

Full Web Application Penetration Testing

May 2025 – Aug 2025

Burp Suite, OWASP

- Performed an **end-to-end OWASP Top 10** assessment with evidence-backed findings and a detailed report with proof-of-concept exploits.

Certificates / Certifications

Certified Ethical Hacker (v13)

Nov 2025

EC – Council

Ethical Hacking

Oct 2025

CISCO

Cybersecurity Analyst

Sept 2025

CISCO

CompTIA Security+ SY0-401

Feb 2023

Infosys

Cyber Security & Ethical Hacking

Dec 2023

Infosys

Skills

Programming & Tools: Python, C++, SQL/MySQL, JavaScript, Solidity, Git, Docker, REST APIs, Linux.

AI / ML & Data: Applied ML, LLMs & AI Agents, Adversarial ML, Explainable AI, Data Analysis, Model Evaluation.

Cybersecurity: VAPT, OWASP Top 10, Vulnerability Assessment, Digital Forensics, Malware Analysis.

Soft Skills: Problem-Solving, Teamwork, Leadership, Communication, Adaptability, Continuous Learning.

Education

Lovely Professional University

Aug 2025 – Present

Master of Technology – Information Security & Cyber Forensics

Phagwara, Punjab

Siddharth Institute of Engineering and Technology

Dec 2021 – Apr 2025

Bachelor of Technology – Cyber Security including IoT and Blockchain Technology

Puttur, Andhra Pradesh
